ELECTRIC

2/5/14 Honorable Chairman and Commissioners,

The dominant utility company here is again attempting to stifle competition by proposing to have the distributed generation requirement removed from our Renewable Energy Standards. The solar industry has brought jobs, investments and status to this state and saves your constituents money. Eliminating this requirement would weaken the solar industry and ensure Arizona continues to lose it's ranking as a top solar state. Please do the right thing for our citizens and vote no to eliminating the solar DG carve-out.

Respectfully, Mark Lyzwa Solar Engineer
